Select the applicant ID type that you normally use to identify your organization on applicant forms

Federal Tax ID Number

Company's Annual Sales

[REDACTED]

What share of the company's product or service is sold within NYS?

100

Provide a summary of the need for the grant funding including all PPE materials and equipment the business or non-profit entity will be purchasing and how they will be used:

Our catering venue was forced to shut down on March 16, 2020 due to the coronavirus pandemic. As a result of the ongoing pandemic most of our events booked for even after we were allowed to reopen, at a maximum capacity of 50 people, were cancelled or rescheduled until next year in the hope that they will be able to have their event with all of their intended guests. In order to prepare for any events that were still planned to take place forced us to purchase multiple PPE materials and equipment in order to keep our guests, employees and families safe from the spread of the coronavirus. Unfortunately with limited money coming in it has made it difficult to pay new bills coming in from new purchases. We purchased: masks, gloves, multiple antibacterial machines signage, sanitation chemicals, and the air handlers and the ductwork needed to be modified in order to accept the larger MERV-13 air filters.

How long has your business or non-profit been in operation?

We opened for business since 1953.

Please describe the impact COVID-19 has had on your business or non-profit

Covid-19 has destroyed our family-owned business. The Government forced us to close our doors which in turn caused parties to cancel. It is not just the lack of income that is hurting our business but we have been forced to return deposits for parties who couldn't reschedule for next year. Now that we are able to open our doors to the public we are limited to only 50 guests which is considerably less than our maximum capacity of 200. So when we are making limited income and forced to return money it is impossible to stay afloat.

Have you applied for or received COVID relief related funding from any other sources?

SBA Loan and grant

Was your business or non-profit financially viable prior to the state disaster declaration?

Yes
